

# OPERATION CARE PACKAGE

## EVENT OVERVIEW

Operation Care Package is our signature give-back event that provides participants with the opportunity to assemble and donate Care Packages to local charitable organizations while also partaking in a highly engaging and interactive game show experience that will help strengthen your group's ability to work together. We start by breaking the group up into teams and having them compete in a variety of light hearted and interactive games to help drive excitement and foster team camaraderie. Once the energy is flowing; we will transition into a highly impactful and ultra-rewarding give-back activity that will focus on the local community that suffers from hunger by producing care package that will be given to children in need. Your team will assemble food supply kits that will go home with children over the weekend in our community that are fed daily at school through government programs. This package of food may be all they have to eat until they return to school on Monday and these care packages fill a large void in the lives of these children.
