

# OPERATION TEDDY BEAR

## EVENT OVERVIEW

Paddington stood just two feet tall, wore a faded blue jacket and had a large brown hat that hung-on by a thread from the top of his bald head. He was the last thing I would see before falling asleep each night and the first thing I would look for when I woke-up in the morning. He was my comfort when a big storm would fill the night sky and the one who I told all my secrets to. He was of course a teddy bear, but to a child he was much more; he was my best friend. Every child deserves their own *Paddington* and during this event you will have the opportunity to help create a new best friend for a lucky kid in the local community! We start this event as well by breaking the group up into teams and having them compete in a variety of light hearted and interactive games to help drive excitement and foster team camaraderie. Once the energy is flowing; we will transition into a highly impactful and ultra-rewarding give-back activity that will focus on children in the local community.

## EVENT DETAILS
